Religions: Religions are vehicles we get into and out of on our journey towards Heaven. They are vehicles of a variety of sizes. They are companies of people that form a unity in agreement form the study of the bible. They form a movement, which forms a company that forms a religion that forms a corporation. A Religious Corporation files for an exemption with the country for tax deductible donations

to grow their “Religion” (Corporation) as they assist the needy of their environments towards saving souls for God.

Many Pastors work for religious corporations. They get paid, they withhold taxes, they think of benefit packages same as we do, retirement, sick time, vacations, education, savings, and the problems of life. They get paid to preach the beliefs that their company has educated them to teach. If a preacher were to speak “new teachings from the bible” that are not in agreement with the companies (Cooperation’s) beliefs, they may be fired, excommunicated from their religion and deemed a sinner, heretic, and a nonbeliever.
