

Evolution Theory Suggests

Evolution theory suggests billions of unknown years. The Darwin theory was written around 1859ad as shown towards the end on this chart. Darwin was at a time in history when there was the awakening of God's people. At the end times of the 1800's, peoples thinking was to come alive with the English versions of the bible, martyrs, and reformers. The year 1859 is almost 6000 years from this point of Creation as presented in the history book, the "Holy Bible". In this study, it takes faith to believe which ever you believe, Creation and or the Evolution theory. We present here the Creation Theory showing Biblical, history, and current events.
